Re: ORGANIC CHEMICALS, INC. NATIONAL PRIORITIES LIST SITE
3291 Chicago Drive S.W., Grandville, Kent County, Michigan

CERCLA SECTION 122(e) SPECIAL NOTICE OF LIABILITY AND
DEMAND FOR PAYMENT OF U.S. EPA'S RESPONSE COSTS

Dear Sir or Madam:

The United States Environmental Protection Agency (U.S. EPA) has undertaken response actions at the Organic Chemical Inc. National Priorities List Site (the Site), pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. Section 9601 *et seq.*, as amended by the Superfund Amendments and Reauthorization Act of 1986, Public Law 99-499 (CERCLA). These actions, which include the implementation of a Remedial Investigation (RI) and Feasibility Study (FS), have documented the release or threatened release of hazardous substances, pollutants, and contaminants at the Site. The RI/FS was completed at the Site on July 12, 1996, and, in accordance with the requirements of Section 104(b) of CERCLA, the Remedial Investigation (RI) Report describes the U.S. EPA's findings on the nature and extent of contamination at the Site. The Feasibility Study (FS) Report has considered alternatives necessary to address the conditions at the Site. These documents have been released for public inspection and comment and are available in the Administrative Record at the Grandville Public Library, Grandville, Michigan and at U.S. EPA's Superfund Record Center in Chicago, Illinois.

Proposed Plan/Record of Decision

Along with the FS Report, the U.S. EPA, in consultation with the Michigan Department of Environmental Quality (MDEQ), issued a Proposed Plan which recommended the appropriate extent of remedial action at the Organic Chemical Site. The Proposed Plan was released on July 12, 1996, for 54 days of public comment. The final Record of Decision (Final ROD) selecting the appropriate remedial action for the Site was signed by U.S. EPA on February 7, 1997. The MDEQ concurred in the Final ROD. The Final ROD and the Interim Operable Unit ROD of September 30, 1991 are attached to this letter.

Additional Response Actions

The U.S. EPA is currently planning to have the Potentially Responsible Parties (PRPs) conduct the following additional response activities at the Site:

- (1) Design and implementation of the Final remedial action selected and approved by the U.S. EPA, in consultation with the MDEQ, for the Site; and
- (2) Provision of any monitoring, operation, and maintenance necessary at the Site, including after the remedial action is completed.

In addition to those further response actions enumerated above, the U.S. EPA may, pursuant to its authorities under CERCLA and other laws, determine that other clean-up activities are necessary to protect public health, welfare, or the environment.

Unless the U.S. EPA determines that the PRPs will voluntarily undertake the remedial action necessary at the Site, the U.S. EPA may, under Section 104 of CERCLA, undertake the remedial action itself and, under Section 107 of CERCLA, seek reimbursement from PRPs of all costs incurred in connection with the action taken. Such costs may include, but are not limited to, expenditures for investigation, planning, response, and enforcement activities. Moreover, under Section 106 of CERCLA, the U.S. EPA may order responsible parties to implement relief actions deemed necessary by the U.S. EPA to protect the public health, welfare, or environment from an imminent and substantial endangerment because of an actual or threatened release of a hazardous substance from the Site.

PRP Determination

Potentially responsible parties (PRPs) under Section 107 of CERCLA include current owners and operators of the Site and former owners and operators of the Site at the time of disposal of hazardous substances, as well as persons who owned or possessed hazardous substances and arranged for disposal, treatment, or transportation of such hazardous substances and persons who accepted hazardous substances for transportation for disposal or treatment to a facility selected by such transporter. The U.S. EPA has information indicating that you are a PRP with respect to the Site. By this letter, the U.S. EPA notifies you of your potential liability with regard to this matter and encourages you, as a PRP, to reimburse the U.S. EPA for its costs incurred to date and to voluntarily perform or finance the response activities that the U.S. EPA has determined or will determine are required at the Site.

SPECIAL NOTICE

Pursuant to Section 122(e)(1) of CERCLA, the U.S. EPA has determined that a period of negotiation may facilitate an agreement with you and other PRPs. Upon your receipt of this Special Notice, you will have a maximum of sixty (60) days to coordinate with any PRPs and to present to the U.S. EPA a "good faith offer" for implementing and conducting the remedial action contained in the Final ROD. In accordance with the requirements of Section 122(e)(2), during this sixty day moratorium, the U.S. EPA will not commence remedial action at the Site. The U.S. EPA may, however, commence any additional studies or investigations authorized under Section 104(b), including remedial design, during this negotiation period. If the U.S. EPA receives from the OCI PRPs within the sixty day calendar period a written "good faith offer" which demonstrates the PRPs' qualifications and willingness to conduct or finance the remedial design and remedial action (RD/RA) consistent with the Final ROD, the U.S. EPA may extend its moratorium on commencement of the remedial action work up to an additional sixty (60) calendar days. The purpose of this additional time is to allow the PRPs and the U.S. EPA a period of time to finalize the settlement, as embodied in a consent decree.

Good Faith Offer

A "good faith offer" for RD/RA shall include the following:

- * a statement of the PRPs' willingness to conduct or finance the RD/RA which is consistent with the Final ROD;
- * a detailed "statement of work" or "workplan" identifying how the PRPs plan to proceed with the work;
- * a demonstration of the PRPs' technical capability to undertake the RD/RA;
- * a demonstration of the PRPs' capability to finance the RD/RA;
- * a statement of the PRPs' willingness to reimburse U.S. EPA for future oversight and past response costs; and
- * the name, address, and phone number of the party or steering committee who will represent the PRPs in negotiations.

If a "good faith" proposal is not received within the initial sixty (60) day moratorium, the U.S. EPA, pursuant to Section 122(e)(4), may proceed to immediately undertake such further action as is authorized by law, including implementation of the remedial action utilizing public funds available to the Agency.

U.S. EPA is aware that there are PRPs at this site who are insolvent or defunct. If the PRPs provide sufficiently detailed, updated information about the existence, liability, and relative shares of responsibility of insolvent and defunct PRPs ("orphan shares"), U.S. EPA will determine the shares of these parties in the amount of U.S. EPA's past costs and future oversight costs to be recovered from the PRPs in a settlement. The term orphan share refers to that share of responsibility specifically attributable to identified parties U.S. EPA has determined are potentially liable; insolvent or defunct; and unaffiliated with any party potentially liable for response costs at the site. You should take notice that an orphan share does not include shares due to, inter alia: unallocable waste; or the difference between a party's share and its ability to pay. If U.S. EPA receives a good faith offer and the PRPs sign a consent decree whereby they shall fully implement the Final ROD, U.S. EPA will consider granting an orphan share of twenty-five percent (25%) of the value of the remedial action costs as to U.S. EPA's costs to be paid in settlement by the PRPs.

DEMAND FOR COSTS INCURRED

As mentioned above, in accordance with CERCLA and other authorities, the U.S. EPA has already undertaken certain actions and incurred certain costs in response to conditions at the Site. The cost to date of the response actions performed through U.S. EPA funding at the Site is four million, six hundred and six thousand, six hundred and sixty-six dollars (\$4,606,666). The U.S. EPA anticipates expending additional funds for response activities at the Site under the authority of CERCLA and other laws. In accordance with Section 107(a) of CERCLA, demand is hereby made for payment of the \$4,606,666 plus any and all interest authorized to be recovered under Section 107(a) or under any other provisions of law. Demand is also hereby made under these authorities for payment of interest on all future costs that the U.S. EPA may accrue in regard to the OCI Site.

PRP List

To assist the PRPs in negotiating with the U.S. EPA concerning this matter, the U.S. EPA is attaching to this special notice and demand letter a list of the names and addresses of the other PRPs to whom this notification is being sent. It should be noted that inclusion on or exclusion from the list does not constitute a final determination by the U.S. EPA concerning the liability of any party for remediation of Site conditions or payment of past costs. Information regarding a ranking by volume and nature of substances contributed by each PRP, as contemplated by Section 122(e)(4)(A), is not available at this time.

Initial Conference

To further facilitate your and any other PRPs' ability to present a "good faith offer" within the sixty (60) day time limit, an initial settlement conference will be held in Chicago on Tuesday, August 4, 1998, at 10 a.m. at the U.S. EPA, in the Lake Michigan Room, 12th Floor, 77 West Jackson Boulevard in Chicago. A draft Consent Decree and a Scope of Work, along with an Itemized Cost Summary explaining the amount of U.S. EPA's demand for payment, and copies of the Interim and Final RODs for this Site are attached to this special notice and demand letter in order to facilitate settlement discussions.

120 Day Deadline

Except in extraordinary circumstances explained in a written request, no extension to the second sixty (60) day moratorium period will be granted by the U.S. EPA. As stated above, if no agreement can be reached, pursuant to Section 122(e)(4), the U.S. EPA may immediately proceed to undertake such further action as authorized by law to implement the remedial action at the Site.

U.S. EPA Notification

As a potentially responsible party, you should notify the U.S. EPA in writing within ten (10) days of receipt of this letter of your willingness to participate in negotiations to perform or finance the activities described above. If the U.S. EPA does not receive a timely response, the U.S. EPA will assume that you do not wish to negotiate a resolution of your potential responsibility in connection with the Site and that you have declined any involvement in performing the response activities.

The response should indicate the appropriate names, addresses, and telephone numbers for further contact with you. If you are already involved in discussions with state or local authorities, engaged in voluntary clean-up action, or involved in a lawsuit regarding this Site, you should continue such activities as you see fit. This letter is not intended to advise or direct you to restrict or discontinue any such activities; however, you are advised to report the status of those discussions or actions in the response to this letter and to provide a copy of the response to any other parties involved in those discussions or actions. The response letter should be sent to:

Thomas G. Williams (SR-6J)
U.S. EPA Office of Superfund
77 West Jackson Blvd.
Chicago, Illinois 60604-3590

-and-

Jerome Kujawa (C-14J)
U.S. EPA Office of Regional Counsel
77 West Jackson Blvd.
Chicago, Illinois 60604-3590

Natural Resource Trustee Notification

By a copy of this letter, the U.S. EPA is notifying the State of Michigan and the Natural Resources Trustees, in accordance with Section 122(j) of CERCLA, of its intent to enter into negotiations concerning the implementation of remedial action at the Site, and is also encouraging them to consider participation in such negotiations.

Further Information

If you need further information regarding this letter, you may contact Mr. Thomas G. Williams of the Remedial and Enforcement Response Branch at tel. #(312)-886-6157. If you have an attorney handling your legal matters, please direct his or her questions to Mr. Jerome Kujawa of the Office of Regional Counsel, U.S. EPA, at tel. #(312)-886-6731.

If you have not already done so, the U.S. EPA strongly encourages you to take immediate steps to organize into a Committee or Committees to negotiate an agreement with the U.S. EPA to undertake the remedial actions at the Site and reimburse the U.S. EPA its costs. We hope that you will give this matter your immediate attention.

Sincerely yours,

James Mayka, Chief
Remedial Response Branch #2
